Summary

As a Frontend Developer with a strong foundation in Electrical and Electronics Engineering, I bring a unique blend of technical skills and software engineering expertise to the table. Currently a student at Kirinyaga University, pursuing a Bachelor of Technology in Electrical and Electronics Engineering, I have supplemented my education with a focused program in Computer Software Engineering from Moringa School. My top skills include Digital Electronics, Signal Processing, and Robotics, which complement my proficiency in frontend development, particularly with React.js. Passionate about creating responsive and user-friendly web applications, I am eager to contribute my knowledge and skills to innovative projects.

Experience

codecavers

Intern | 05/2024 - Present

writing clean and maintainable code, and following design guidelines. .
